

How to Use Your Insurance Policy Tracker

SKU OPS-008 • INSURANCE POLICY TRACKER

What this workbook does

Single register of every insurance policy touching your STR portfolio — STR-specific dwelling insurance, umbrella liability, vehicle, business equipment, AirCover backup. Surfaces expiring policies in the next 60 days, premium totals, claim history, and "uninsured exposure" gaps.

First-time setup (15 min)

1. **Policy Register** — for each policy:

- Carrier, policy #, type (STR dwelling / umbrella / vehicle / business / cyber / other)
- Properties covered
- Coverage limits (dwelling, contents, liability, business interruption)
- Deductible
- Annual premium
- Renewal date
- Agent contact + emergency claim contact

2. **Coverage Gap Analysis** (the killer feature): the workbook walks through 8 risk categories and flags which you DO and DO NOT have coverage for.

Every month

1. Open the Calendar. Yellow flags 60 days before any renewal.
2. For yellow-flagged policies: shop carriers (insurance carriers raise rates more aggressively at renewal than during term).
3. Update the Policy Register with new terms.

The 8 risk categories

Coverage Gap Analysis tab walks through:

1. **Dwelling/structure damage** (storm, fire, theft) — base policy
2. **Personal liability** — base policy
3. **Loss of business income** during repairs — often missing

4. **Short-term rental endorsement** — many homeowners' policies EXCLUDE STR use
5. **Commercial liability** above platform's AirCover coverage
6. **Cyber / data breach** (if you collect guest data on direct-booking site)
7. **Vehicle (if used for business)** — personal auto policies often exclude business use
8. **Workers comp** (if you have employees, even part-time)

Common gaps the workbook catches

- "STR endorsement not on dwelling policy" — claim denied when guest damages property
- "Umbrella excludes STR rental" — fine print most hosts don't read
- "Vehicle commercial use not covered" — claim denied for accident on supply run
- "Business interruption coverage missing" — roof damage = 6 weeks closed = \$48K of lost revenue with no insurance recovery

At renewal

1. Open Policy Register row for the renewing policy.
2. Click into Carrier-Comparison tab — paste 3 quotes (current carrier + 2 competitors).
3. Compare on premium, deductible, coverage limits, exclusions.
4. Switch carrier OR negotiate with current.

Questions?

hello@thestrledger.com — real humans, fast replies.

Pair with: OPS-002 Damage Claim + AirCover Log (Airbnb-specific claims), LGL-004 Insurance Claim Log (claims against the policies tracked here), LGL-001 STR License Renewal Calendar (parallel renewal tracking — different deadline cadence).
