

How to Use Your 1099-NEC Contractor Tracker

SKU TAX-003 • 1099-NEC CONTRACTOR TRACKER

The rule (quick)

IRS Pub 1220: any contractor you pay \$600+ in a calendar year for business services gets a 1099-NEC from you by January 31 of the following year. Miss one = \$60-\$660 penalty per form.

10-minute setup

1. Tab **Contractors** — add every vendor. Critical fields: Name, EIN/SSN, Address, W-9 status.
2. Tab **Settings** — confirm threshold (\$600 for 2026; IRS may adjust).

Every payment

1. Tab **Payment Log** — new row.
2. Pick date, contractor (dropdown), amount, method (Venmo/Zelle/etc.), property.

The Dashboard updates automatically.

Monthly check (2 minutes)

Open tab **1099 Prep Dashboard**. Look at:

- **YES in red** — contractor has crossed \$600 this year.
- **Status column** — "⚠ Need W-9" means you need to request one before you can file their 1099.

December sweep

Make sure every YES contractor shows "✓ Ready." For any "⚠ Need W-9" — email them the IRS W-9 form (irs.gov/pub/irs-pdf/fw9.pdf) with a deadline.

January: file

Options: QuickBooks Online, Track1099.com, or hand the Dashboard to your CPA. Data you need per contractor: legal name, EIN/SSN, address, total YTD paid. All on the Dashboard.
