

STR Supply Par-Level Sheet

Linens, consumables, and per-property minimums — preview release.

This is a placeholder version of the Supply Par-Level Sheet — a printable reference your cleaner can hang in the laundry room to never run out of sheets, towels, toiletries, paper goods, or pantry restock items.

The full version is property-tunable (king/queen mix, bath count, average monthly bookings) and ships with a per-month restock calendar.
